+91-7034387286 | Perumbavoor, Ernakulam, Kerala | kailasn778@gmail.com | linkedin.com/in/kailasnath-ks | github.com/kailasnath

PROFESSIONAL SUMMARY

QA Engineer with hands-on experience in manual and automation testing, API validation, regression testing, and fintech application testing within Agile environments. Proficient in Selenium (Java), Postman, Jira, K6/JMeter, and REST API testing. Experienced in sprint-based QA processes, defect management, and cross-team collaboration to ensure high-quality releases.

SKILLS

Technical: Manual & Automation Testing, Mobile Testing, Test Case Design, Selenium, Java, Postman, Jira, Git, TestNG, Maven, JMeter, K6, SQL, HTML, CSS, Burp Suite, Swagger API, Excel

Soft Skills: Attention to Detail, Communication, Problem Solving, Team Collaboration, Time Management, Adaptability

EXPERIENCE

Junior Quality Analyst | Radiant Acemoney, Kochi

Jul 2025 – Present

- Designed and executed 150+ manual test cases covering functional, regression, smoke, and validation testing for web and mobile applications across Agile sprints.
- Identified and reported 40+ defects per sprint in Jira with detailed reproduction steps, screenshots, and severity classification, achieving an average 95% retest pass rate.
- Validated REST APIs using Postman — JSON responses, authentication workflows, status codes, and edge-case business validations.
- Proactively implemented Selenium automation scripts with Java (TestNG/Maven) for repetitive and time-consuming test flows; also conducted K6/JMeter performance testing.
- Tested fintech modules including AEPS, mATM, bill payments, KSEB, and KWA POS device workflows, covering 100+ edge-case and negative test scenarios.
- Collaborated with developers, product, and QA teams during sprint reviews, defect triage, and release validation, contributing to 10+ successful sprint releases.
- Identified workflow inconsistencies and performed basic security testing exposure using Burp Suite across authentication and input validation flows.

QA Intern | Camerinfools, Kochi, Kakkanad

Mar 2025 – Jul 2025

- Wrote and executed 100+ test cases for web applications; logged 30+ bugs with clear reproduction steps and structured severity reports.
- Built Selenium WebDriver automation scripts integrated with TestNG and Maven, covering core login and workflow scenarios.
- Performed API testing using Postman, validating response data, status codes, and schema against requirements.
- Applied SDLC, STLC, and defect lifecycle knowledge throughout QA processes; wrote SQL queries to validate backend data integrity.

PROJECTS

Guru99 Demo Site | Selenium, Java, TestNG, Maven, Excel

Performed UI and functional validation using manual test cases in Excel and automated regression scripts via Selenium with TestNG and Maven.

Swag Labs E-Commerce Testing | Manual Testing, Excel

Designed and executed test cases covering login, cart, checkout, and UI workflows on the Swag Labs demo site.

College Club Portal | PHP, Manual Testing

Developed and tested a PHP-based web platform for student club management including login, event creation, and admin panels.

Event Management System | Python, Django, Manual Testing

Built and tested an event booking platform using Django; performed UI and functional testing to ensure smooth user experience.

EDUCATION

BSc Computer Science

Jun 2021 – May 2024

Sree Sankara Vidyapeetom College, Valayanchirangara, Ernakulam

CERTIFICATIONS

- Software Testing – Camerinfo
- Red Hat System Administration I (RH124) – Red Hat, May 2024
- IBM: SQL and Relational Databases 101 – IBM / Cognitive Class, Sep 2024
